**RE: Change in Health Directions from Thursday 23rd of December 11:59pm**

23<sup>rd</sup> December 2021

To all staff, clients, their family and support networks,

The Acting Victorian Premier James Merlino has just announced changes in restriction levels for Victorians in response to growing concerns about the spread of the Omicron variant of SARS-CoV2 (COVID-19).

The new measures mean that there will be a mask mandate for all Victorians who are over 8, and able to wear a mask, to do so while in indoor spaces (in non-domestic settings).

While the mandate is for non-domestic settings, we would like to reiterate that masks continue to be mandatory for all in-home supports delivered by Lifestyle Centred Services team members.

It is also recommended that people due for their booster dose of vaccination for the virus, book in to get their booster as soon as possible.

We remain alert to the changes in public health recommendations in solidarity with the effort to contain the transmission of the virus over the festive period and into the new year, which we hope will be a better one for all of us.

We also hope that this is the last update on this topic for the very big year that has been 2021. Enjoy time with your family and friends, whatever you are planning over the next few weeks.

If you have any queries, suggestions, feedback or concerns, please don't hesitate to contact us.

Kind Regards,

Karl Ellaway  
Director
